Ms. Masi Shokraipour
Aero Electric Connector, Inc.
2280 208th Street
Torrance, CA 90501

Dear Ms. Shokraipour:

Re: Addition of Electronic Connector Co. as Category-C Distributor; MIL-DTL-38999 Series III; FSC 5935; Letter Number VQP-17-031282; CN 055364

We have received your email along with your findings from Aero Electric Connector's audit of Electronic Connector Co. in Chicago, Illinois. Your documentation has been reviewed and found to be acceptable. Therefore, Electronic Connector Co. will be added as a distributor location under Aero Electric Connector's Qualified Products List (QPL) 38999 listing during the next revision as follows:

| Manufacturer | Distributor |
|---|--|
| Aero Electric Connector, Inc. (CAGE Code: 59976) Location: 2280 208 th Street Torrance, CA 90501 | Electronic Connector Co. Location: 6332 S. Central Ave. Chicago, IL 60638 |

It is the responsibility of Aero Electric Connector to ensure that all connector assemblies produced at the distributor's plant meet the applicable military requirements along with assuring that the assembly process conforms to processes established at the qualified Aero Electric Connector manufacturing plant. DLA Land and Maritime reserves the right to conduct audits of any and all Category-C Distributors.

If you have any questions concerning this letter, please contact Eddie Shen at vqp.es@dla.mil.

Sincerely,

For, ALAN WILL

QPL Manufacturers Distribution

SUBJECT: Removal of the 3 Axial Coupling Indicator Stripes on MIL-C-26482 Series 2
Plug Connectors

The requirements section of MIL-C-26482G dated 3 January 1991 (paragraph 3.4.4.1.1) requires three axial stripes be placed on the plug shell and coupling ring to provide visual indication of full mating. The requirement for the axial stripes will be eliminated during the next revision of MIL-C-26482. This affects components produced to MS3475 and MS3476. Until such time that these changes can be incorporated into the documents please use this letter as authorization to produce these connectors without the 3 axial stripes.

If you have further questions or need more information, please contact
Mr. Abdo Abdouni at (614) 692-0565, Fax: (614) 692-6940 or
